PlatinumTE
PASPALUM

Herbicides that are Not Safe for Paspalum

www.PlatinumTE.com

Illoxan (diclofop-methyl)*
Trimec Classic
Trimec Enclore (MCPA+MCPP+2,4-DP)
Finale (glufosinate)
Asulam (asulox)
Aatrex (atrazine)
Sencor (metribuzin)*
Bueno, Daconate (MSMA)
Arsenal (imazapyr)
Fusilade (fluzifop-butyl)
Reward (diquat)
Surflan (oryzalin)
Plateau (imazapic)
Turflon Ester (triclopyr)
Acclaim (fenoxaprop)
Trimec Plus
Goal (oxyfluorfen)
Ronstar WP (oxadiazon)
Princep, Wynstar (simazine)
Vantage (sethoxydim)
Envoy (clethodim)
Roundup (glyphosate)
Confront (triclopyr + clopyralid)
Velocity (bispyribac-sodium)
Velpar (hexazinone)
MSMA, DSMA

Triclopyr combination products:
Turflon II or Chaser 2 (2,4-D + triclopyr) **Momentum** (2,4-D + triclopyr + clopyralid)
Battleship (MCPA + triclopyr + clopyralid) **Horsepower** (MCPA + triclopyr + dicamba)
Confront (triclopyr + clopyralid)

*1+x rates periodically may give intermediate variable paspalum tolerance responses

Sulfonylurea herbicides that are not safe:
Revolver = foramsulfuron (rates >1x)
Monument = trifloxysulfuron-sodium
TranXit/GTA = rimsulfuron
Certainty = sulfosulfuron (rates 2.5 oz/acre or higher)
Corsair = chlorsulfuron
Destanee = idosulfuron
Katana = flazasulfuron (3-6 oz/acre rates)
Oust = sulfometuron

Sulfonylurea herbicides that are safe:
Manor/Blade/Escort/Accurate = metsulfuron
Manage = halosulfuron
Sedge Hammer = halosulfuron
Sandea = halosulfuron
Certainty = sulfosulfuron (<2.5 oz/acre rate)
